SHIP FINANCE

PERSPECTIVES & KEY ELEMENTS - PRACTICAL EXERCISES

OBJECTIVE

The purpose of this 1 day course is to give the participants knowledge and understanding of ship finance. How do shipping companies manage their capital and finance their ships? The high risks and values involved when operating ships are reflected by complex financing schemes and loan agreements with extensive covenants. We introduce the shipping segments, the banks and key elements as Character, capacity and Capital. We perform asset valuations and cash flow analysis under Voyage & Time Charter Parties.

TOPICS TO BE DISCUSSED

- Ship segments
- Shipping banks
- Guarantee Institutions
- Micro & Macro Perspectives
- Cash Flow Analysis
- 3 C's: Character, Capacity & Capital
- Risks & Liabilities
- Practical Case Work
- Discussion

TARGET GROUP

The target group for this course is all employees in the shipping industry, those working in related industries, as well as those taking an interest in shipping and who are eager to understand the financing aspect of shipping. Our ambition is to develop an understanding of ship finance & core commercial demands as well as lenders requiring Environmental and Social Governance by ship owners and operators.

This knowledge is valuable for a variety of employees. Whether you work within ship management, chartering, finance & accounting, or other functions within the maritime industry cluster, such as classification, banking, P&I, / H&M insurance, etcetera.
